

Summer Reading & Math Expectations

Incoming 2nd Graders

Dear incoming 2nd grade families,

I am excited to have your child in my 2nd grade class next year! I know they have made wonderful progress with Mrs. Olkowski in 1st grade. In order to continue making progress, your child will practice math skills and continue reading over the summer.

Summer Reading	Summer Math
<p>1. Required: Class-wide Book- Each student will read <u>The Invisible Boy</u> by Trudy Ludwig. There is no work to complete with this book, just read and enjoy this summer! We will discuss the book as a class our first week of school. You can purchase or borrow (from a friend or the library) a copy of the book.</p>	<p>1. Required: 5-A-Day Math Sheets and Progress in Mathematics Review packet- Your child will complete 5 problems a day which cover a variety of 1st grade math skills. Their goal is to complete one page a week. There is a board for them to track their progress throughout the summer.</p> <p>There is also a <i>Review of 1st Grade Mathematical Skills</i> packet to complete.</p>
<p>2. Required: Individual books- In addition to our class-wide book, I ask that your child read 10 books over the summer. There is a reading log attached where you can keep track of the books. There are more than 10 lines if your child reads more than 10 books. I have also included a choice board to make reading even more fun this summer!</p>	<p>2. Optional: Math Choice Board- I have also included 4 math choice boards for math enrichment throughout the summer. Feel free to incorporate these if you'd like in your summer routine.</p>

Have a fantastic summer and I look forward to our upcoming school year together!
